

### **April 15, 2009 Tea Party at the Colorado State Capitol in Denver**

Several members of Revive Our American Republic attended the Colorado Tea Party on April 15, 2009 at the state capitol in Denver. The Denver Post reported more than 5,000 people attended. "Taxed Enough Already" was the theme that brought masses of concerned citizens to rally at courthouses and state capitols in cities all across our great nation. Lower taxes, reduced spending, and smaller government was the resounding mantra of the ordinary people who want their voices to be heard. Members of ROAR and other citizens banded together on April 15th as Americans, not as a particular party affiliate, who are striving to make a difference. The Tea Party was the first step of our march toward responsibility and common sense government in 2010. ROAR believes in "policy over party".
